NATURE'S WARNING

YALE PEOPLE MUST RECOGNIZE AND HEED IT.

Kidney ills come mysteriously. But nature generally warns you. Notice the kidney secretions. See if the color is unhealthy—If there are settlements and sediment. Passages frequent, scanty, painful. It's time to fear serious kidney trouble.

It's time to use Doan's Kidney Pills. Doan's have done great work in Yale. William Wilson, farmer, R. F. D. No. 5, Yale, Mich., says: "For a long time I was troubled by disordered kidneys. The kidney secretions were irregular in passage and accompanied by a scalding sensation. There was also sediment in them. I tried many ways to get relief, but was unable to find anything that would benefit me until I took Doan's Kidney Pills procured at Grant Holden's Drug Store. I am pleased to say that they entirely corrected my trouble and restored me to much better health."

Price 50c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mr. Wilson had. Foster-Milburn Co., Props., Buffalo, N. Y.

WHAT IS FEAR?

A Feeling Based on the Instinct of Self Preservation.

That well known investigator of psychological abstractions, M. Fernandez Mazade, has attracted much attention by a discussion of the query, "What is fear?" The famous psychological playwright, Alfred Capus, who has dealt with the human emotion with such fidelity in his masterpieces, writes:

"In general, I think that when there is an accident or an illness one has not a sufficient perception of the peril to have the feeling of fear. Fear implies a consciousness of danger and the refusal or moral impossibility to face it. Fear consists in capitulating to the instinct of self preservation."

M. Victor Marguerite says: "Fear is a physical trouble much more than a feeling" and can ultimately be overcome by force of will. M. Alfred Mezieres of the French academy considers that fear is caused by some unexpected danger. M. Pouchet of the Academy of Medicine doubts whether any man has ever been quite free of fear for himself or for others.

M. Sicaud, who is a professor at the Faculty of Medicine, considers fear or courage to be the result of temperament, training and thought. Fear can be partially eradicated by reasoning and education, but it will never be overcome in its most acute form—namely, the instinct of self preservation. The conclusion is that it is far from being unanimously admitted that fear is a ridiculous malady.—Philadelphia North American.

OUR FIRST NEWSPAPER.

It Was Published in 1690 and Lasted Just One Issue.

The first newspaper printed in North America was Publick Occurrences, which issued its first and only number in 1690 in Boston. The publisher, Benjamin Harris, proposed to get it out monthly, but the authorities came down on the project "like a ton of brick" and Harris had to abandon the scheme.

Public Occurrences was printed on three pages of a folded sheet, the pages being 7 by 11 inches in size. It was "Printed by R. Pierce for Benjamin Harris at the London Coffee House" in Boston. The authorities alleged that it contained "reflections of a very high nature," and within twenty-four hours of the appearance of the first number the editor and publisher was solemnly warned that a repetition of the offense would merit severe punishment.

"That Memorable Occurrence of Divine Providence not to be neglected or forgotten, as they too often are," and "That people everywhere may better understand the Circumstances of Publick Affairs, both abroad and at home," Harris founded his journal, and it was a pity that he should have been thwarted in his design "that the Country shall be furnished once a month (or if any Glut of Occurrences happen oftener, with an Account of such considerable things as have arrived upon our Notice."—New York World.

Woman's Logic.

You sometimes wonder about the logic of the feminist mind.

A man was to meet his wife at her office at 1 o'clock to take luncheon with her. He was twenty minutes late. She had gone out.

He sat down and waited. At 1:30 she arrived.

"What are you doing here?" she asked.

"I'm waiting for you."

"Didn't you know I wouldn't come back after I'd given you up and gone out?"

"But you did come back, didn't you? You are back now, aren't you?"

"Yes, but you might have known that when I did come back I would have had my lunch and there would be no use in waiting to have it with me."

"Well, have you had it?"

"No."—Denver News.

Reasonable.

Lord Esher, who when president of the English court of appeal used to keep up a running fire of chaff on learned counsel, sometimes got a Roland for his Oliver, as when a young barrister in the course of argument stated that no reasonable person could doubt one particular proposition.

"But I doubt it very much," said the judge.

The youthful advocate, not one whit abashed, replied, "I said no reasonable person, my lord."

The master of the rolls could only gasp, "Proceed, sir, proceed."—London Express.

All He Wanted to Know.

"Maria, I'm going to have Dr. Squilpe treat me for my heart trouble."

"What do you know about Dr. Squilpe, John?"

"All I know about him is that Mr. Gotsum recommends him to me."

"Who is Mr. Gotsum?"

"Mr. Gotsum is one of the stockholders of the life insurance company that is carrying a \$20,000 risk on my life."—Chicago Tribune.

The Dry Salt.

"I should think you would have preferred the army to the navy?"

"No, ma'am. I'd rather do my fighting on water and keep dry than on land and have to stand knee deep in water in the trenches all the time."—Detroit Free Press.

Time's Changes.

Time makes many changes. When you were eighteen if somebody had told you that at forty you'd be taking dancing lessons you'd have laughed in his face.—Detroit Free Press.

TOO MODEST

Michigan people are apt to think that when a manufacturer says, "My product is best," he means it, but may be his enthusiasm makes the statement a trifle exaggerated. Therefore, it is interesting to find that one manufacturer is accused of being too modest in regard to his 68 year old liniment, Messrs. Nicholson & Stur of Cheyenne, Wyo., says: "We know from personal experience that Hanford's Balsam of Myrrh will do all and more than the Hanford Company claim for it."

How We Get The News

Day before yesterday a perfectly nice lady called us up and with tears in her voice reproved the Expositor for not mentioning the fact that she had had a friend visiting her last week. We told her that she had not let us know anything about it and that therefore, we did not know she had a visitor. Then she said, "Well, you should have known. I thought you were running a newspaper." Wouldn't that rattle your slats? Some people think that an editor ought to be a cross between Argus and Anna Eva Fay. They seem to think that our five senses are augmented by a sixth that lets us know when anything happens, even if we see, hear, feel, taste or smell it not. Dear lady, editors are only human or at least almost human. If you have a friend visiting you, if you are going away, or have returned from a visit out of town, if Johnnie falls and breaks his arm, if your husband chops his toe instead of a stick of wood, if anything happens that makes you glad, or sad, happy or mad, call us up. Tell us about it. That's the way to get it in the paper.
